

PROJECT PARKS AND PLAY
EXPLORE THE POSSIBILITIES
WILMETTE PARK DISTRICT

Explore the possibilities -
join the conversation!

The Wilmette Park District is planning for the future of our parks and facilities, recreational activities and operations to best meet future needs of the Wilmette community, and we need YOUR help! Residents will be asked to provide feedback throughout the process, and the input will help create a clear vision for parks, facilities and recreation so that the Park District can best meet the needs of residents for play, health, wellness, open spaces and nature places. The end result will be a strategic and comprehensive plan.

All Wilmette residents are invited to complete a survey as part of Wilmette Park District's Comprehensive and Strategic Planning process, **Project Parks and Play: Explore the Possibilities**. The survey is an in-depth and statistically valid effort to gather community feedback. Every household should've received either a printed survey or a postcard invitation with a website and a specific pin code. All feedback is anonymous.

➤ **Help us improve our community by sharing your thoughts!**
➤ **We want your feedback.**

Paper

Online

Phone

The survey will gather resident's opinions on Park District facilities and programs, impressions of efforts surrounding sustainability, recreation, accessibility and inclusion, safety, innovation and more. All residents are encouraged to respond to the survey – regardless of age, gender, ability and whether or not they use Park District parks, facilities or programs. The survey can be completed on paper, online or via phone, and will be available for approximately one month.

ANY QUESTIONS:

- If you don't receive a survey by mid-February, contact our partner aQity Research & Insights at **866-900-8555**. Have multiple opinions in your household? You may request an additional survey from aQity Research & Insights.
- Scan the QR code or visit **<https://berrydunn.mysocialpinpoint.com/wilmetteparkdistrict>** over the next several months for continuous opportunities to share feedback and planning updates.
